ROOT GRAFTS.

Prepare the Ground well, and plant as soon as the frost is out in the Spring.

We are putting up a large assortment of Apple and Crab root grafts of all the leading varieties. Being large growers of Apple Seedlings, and having a large stock of scions, we are well prepared to furnish good grafts at low prices.

After our grafts are made we assort them into No. 1 and 2 grades. Those that are small or inferior in any respect we put in the No. 2 leaving the first class strictly No. 1. Orders should be sent in early. No extra charge for packing. Samples sent if desired, also a list of varieties. Our grafts are tied 100 in a bunch, therefore do not order less than that amount of any one kind.

Apple and Crab root grafts, first-class general assortment.
